

Hubert Burda Media

Intelligent IT solutions

With 40 developers, project managers and agile masters we focus our work on data science, data engineering and software development in digital business. We are based at two locations in Germany (Munich and Offenburg).

Since our foundation in 2008, our goal as an IT service provider has always been to make customers successful. To this end, we work on innovative, reliable and powerful solutions with enthusiasm and in a fun environment.

Readiness to help others and cooperation are written in capital letters, according to the motto: "To be allowed to be yourself in a team and to achieve everything you are capable of."
